The story of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma's territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College (OAMC) in Payne County. OAMC’s first students assembled for class on December 14, 1891, even though there were no buildings, no books, and no curriculum. The college’s first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie that were donated by four local homesteaders. The college’s first six graduates received their diplomas in 1896.

Visitors to the OSU campus often marvel at its beauty and consistency of architecture. Much of the credit goes to legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett’s 25-year campus master plan envisioned some of the university’s most famous and beautiful structures, including the Edmon Low Library and the OSU Student Union. A new campus master plan is guiding unprecedented construction that is making OSU more competitive in academics and athletics. Starting in the fall of 2008, OSU has opened the new Multimodal Transportation Terminal, the new North Classroom Building, the west end zone of Boone Pickens Stadium, refurbished Old Central, the Donald W. Reynolds Architecture Building, an upgraded Murray Hall, the new Henry Bellmon Research Center, an updated and expanded Student Union, the Greenwood Tennis Center, the new north wing to the College of Human Sciences building, and the innovative University Commons residential complex and dining facility. Hall of Fame Avenue on the north and University Avenue on the south, as well as core north-south artery Monroe Street, have all been significantly upgraded, and the university continues to update its campus landscape plan, including the addition of a Welcome Plaza southeast of the Student Union.

OSU grew quite rapidly following World War II. The post-war years were marked by a huge enrollment surge and the thriving “Veteran’s Village” on the northwest edge of campus as veterans and their families moved into surplus military housing provided by the college. The mid-1940s also were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling, and the NCAA championship in basketball. In 2016, the undefeated 1945 football team was retroactively awarded the national championship trophy by the American Football Coaches Association. The next year, the wrestling and basketball teams repeated as national champions, and the football team won the Sugar Bowl.

Coaches and players from that era are now sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

People often ask when OSU made the transition from college to university. By the 1950s the college had grown substantially. Suggested names for a “new” institution were “Great Plains University,” “International University,” and “Atomic University.” In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU would build academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988, and OSU-Tulsa was born in 1999.

Today, OSU has more than 35,000 students across five campuses and a presence in every Oklahoma county through its extension offices and experiment stations. From six graduates in 1896, to nearly 5,000 annually today, the small college on the prairie has grown and prospered far beyond the dreams of its founders. OSU teaching, research and graduates are making a bigger impact on the lives of people around the world than ever before. It’s a great time to be a Cowboy!

COMMENCEMENT
OKLAHOMA STATE UNIVERSITY
December 9 & 10, 2016
Stillwater, Oklahoma
This is a momentous day on the beautiful campus of Oklahoma State University.

As an Oklahoma State University graduate, you join a long list of successful men and women who have gone before you. For decades, OSU graduates have used their creativity and passion to make an impact on our world. We know each one of you is prepared to boldly go forward and find your own success.

We are honored to welcome all the family and friends that are here to join in this wonderful and meaningful accomplishment. We are thankful your graduate chose OSU. You should be extremely proud of the role you played in his or her success.

The entire OSU community – faculty, staff, alumni and donors – takes special pride in watching our students walk across the stage. This is the day that makes all our work worthwhile. OSU exists to help our students pursue their dreams and today we all rejoice!

Congratulations. Best wishes. Go Pokes!

Alma Mater Hymn of Oklahoma State University
Words by Robert McCulloh, '49

Proud and immortal, Bright shines your name;
Oklahoma State, We herald your fame.
Ever you'll find us loyal and true,
To our Alma Mater, O. S. U.

Oklahoma
Written by Oscar Hammerstein II
Music by Richard Rodgers

Oklahoma, where the wind comes sweepin' down the plain,
And the wavin' wheat can sure smell sweet
When the wind comes right behind the rain.
Oklahoma, ev'ry night my honey lamb and I
Sit alone and talk and watch a hawk makin' lazy circles in the sky
We know we belong to the land
And the land we belong to is grand!
And when we say -Yeeow! A-yip-i-o-ee-ay!
We’re only sayin’ You’re doin' fine, Oklahoma!

Justice Steven W. Taylor was born June 7, 1949, in Henryetta, Oklahoma. He graduated from McAlester Public Schools in 1967. He earned his B.A. in Political Science from Oklahoma State University in 1971. Justice Taylor received the Juris Doctor degree from the University of Oklahoma College of Law in 1974.

Taylor joined the United States Marine Corps in 1970 and served on active duty from 1974-1978. He was trained as an infantry platoon commander and later served as a prosecutor and Chief Defense Counsel. In 1977, he became the youngest judge in the U.S. Armed Forces. He was promoted to the rank of Major. Following his active duty service in the Marines, Taylor practiced law in McAlester from 1978-1984. In 1980 he was elected to the McAlester City Council and in 1982 was elected Mayor of McAlester, making him the youngest Mayor in that city’s history. He was named one of Three Outstanding Young Oklahomans for 1983. In 1985, in recognition of Taylor’s leadership in economic development, the City of McAlester named a multi-million dollar industrial park for him where many industries now employ several hundred Oklahomans. In 1997 he was named “Citizen of the Year” in McAlester. Taylor serves on the Board of Directors of the Oklahoma Medical Research Foundation, Oklahoma City National Memorial and the Oklahoma Heritage Association. He is a member of the First United Methodist Church of McAlester and is a trustee of Oklahoma City University. His wife Mary is a teacher in the McAlester Public Schools. They have one son Wilson. Justice Taylor is the co-author of a book, *The University of Oklahoma College of Law: A Centennial History*.

In 2002 Taylor was recognized by Oklahoma State University as a “Leadership Legacy” and 2003 “Distinguished Alumnus”. In 2007 Justice Taylor was inducted into the Oklahoma State University Hall of Fame, and in 2009 the University of Oklahoma presented him with the Regents Alumni Award. He is the only person to have received the highest alumni recognition from both OSU and OU.

In March of 1984 Governor George Nigh appointed Taylor Associate District Judge for Pittsburg County. In 1991 he was the first Associate District Judge ever to be elected President of the Oklahoma Judicial Conference. In 1994, Taylor was elected District Judge of the 18th Judicial District. In 1997 and 2003 he was elected Presiding Judge of the ten county East-Central Judicial Administrative District. Taylor was the recipient of the Oklahoma Bar Association “Award of Judicial Excellence” in 2003 as the outstanding Oklahoma judge of the year.

In his over 20 years as a trial judge, he presided over more than 500 jury trials including the Terry Nichols Oklahoma City bombing case.

On September 24, 2004, Governor Brad Henry appointed Taylor to be a Justice of the Supreme Court of Oklahoma.

During the 2007 Oklahoma Centennial year Oklahoma magazine named Justice Taylor as one of the "100 Who Shaped Us"- a list of living and past Oklahomans who influenced the first 100 years of our state. In 2009, Justice Taylor was inducted into the Oklahoma Hall of Fame, the highest honor an Oklahoman can receive from the state.

The list of fall 2016 degree candidates was prepared before final grades were reported, and inclusion herein does not constitute evidence of graduation. Final action to ensure an accurate listing of names of all persons qualified for degrees could not be compiled before this program went to print. The listing of a name in this program should not be construed as an indication that the person will in fact receive a fall 2016 degree from Oklahoma State University at this commencement. Conversely, the absence of a student’s name from this list does not necessarily mean the person will not be awarded a degree. Final certification of degree and academic distinction will be made by the Colleges and the Registrar after candidates have completed all degree requirements.

**Graduation with Distinction**

The following final grade-point-average distinctions are determined at degree completion and will appear on undergraduate diplomas and transcripts:

Additional Spring 2016 Degree Recipients

OSU spring and summer degree candidates are invited to participate in the OSU spring commencement ceremony, and their names are listed in the spring commencement book. However, because the spring commencement book goes to print shortly after April 1, it is not possible to include candidates who apply for graduation after that date. This section recognizes these degree recipients, some of whom will participate in today’s ceremony.

The robes, hats and hoods worn by faculty members and graduates as they march into the commencement hall, and even the different colors you see on them, have historical origins and significance.

During the Middle Ages, scholars at the earliest English and European universities wore wool or fur garments to stay warm in the drafty, stone buildings that were poorly heated. Most of the scholars were also monks or priests, and as such had the hair shaved from the crowns of their heads in the distinctive clerical tonsure. Most wore cloaks that included a hood that could be pulled up to keep their heads warm. The academic gowns and hoods were adapted from both secular and clerical garments of the time, and the hood was chosen by the early scholars to indicate by color, trim or binding the degree held by the wearer.

The style of academic dress most frequently worn in the United States dates back to colonial times, although it was not formally adopted until near the end of the 19th Century, when it was chosen as appropriate attire by the Intercollegiate Commission during a meeting in New York. It has remained the general standard in America since, although some variations occur at individual institutions. In the United States, black is the traditional color for academic gowns, although some institutions allow holders of doctoral degrees to wear robes in the university’s colors.

The sleeves of the robes vary, depending on the degree held by the wearer. The bachelor’s robe has long, pointed sleeves. The master’s robe has sleeves that are oblong and closed at the ends, with slits through which the arms may be extended. The doctoral robe has a full sleeve with a velvet facing on the front and at the neck, and three velvet bars on each sleeve. The velvet may be black or of a color that symbolizes the degree held by the wearer.

The head covering most commonly used in the United States is the square, tasseled “mortarboard.” Some American universities, however, use berets, and in other countries a variety of styles of head coverings is worn with academic regalia. The tassel is usually black and is worn over the left front quarter of the mortarboard. Holders of doctoral degrees may wear gold tassels.

The hood is the most distinctive feature of American academic dress, which through color and design may indicate the wearer’s degree and the institution at which that degree was earned. Hoods are lined with the colors of the institution that awards the degree, and may be faced with the color designating the degree awarded. Hoods vary in length. The bachelor’s hood is about three feet long, the master’s slightly longer and the doctoral version is longer still and is decorated with broad color panels.

Candidates for advanced or professional degrees wear hoods symbolic of the degree. The color of the trim of the hood and the sleeve chevrons and panels of the academic gown are distinctive of the degree as follows:

The colors of Oklahoma State University are embodied in the lining of the hood (orange and black chevron). The colors of the hoods of faculty and guests are those of the institution conferring the degree.

In addition to the academic regalia described above, some students wear cords, sashes, ribbons, and other symbols of heritage or achievement in academics, service, and leadership.

Portions of the proceeding were adapted from the commencement program of the University of Arkansas at Little Rock.

History of Oklahoma State University

The story of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma’s territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College (OAMC) in Payne County. OAMC’s first students assembled for class on December 14, 1891, even though there were no buildings, no books, and no curriculum. The college’s first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie that were donated by four local homesteaders. The college’s first six graduates received their diplomas in 1896.

Visitors to the OSU campus often marvel at its beauty and consistency of architecture. Much of the credit goes to legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett’s 25-year campus master plan envisioned some of the university’s most famous and beautiful structures, including the Edmon Low Library and the OSU Student Union. A new campus master plan is guiding unprecedented construction that is making OSU more competitive in academics and athletics. Starting in the fall of 2008, OSU has opened the new Multimodal Transportation Terminal, the new North Classroom Building, the west end zone of Boone Pickens Stadium, refurbished Old Central, the Donald W. Reynolds Architecture Building, an upgraded Murray Hall, the new Henry Bellmon Research Center, an updated and expanded Student Union, the Greenwood Tennis Center, the new north wing to the College of Human Sciences building, and the innovative University Commons residential complex and dining facility. Hall of Fame Avenue on the north and University Avenue on the south, as well as core north-south artery Monroe Street, have all been significantly upgraded, and the university continues to update its campus landscape plan, including the addition of a Welcome Plaza southeast of the Student Union.

OSU grew quite rapidly following World War II. The post-war years were marked by a huge enrollment surge and the thriving “Veteran’s Village” on the northwest edge of campus as veterans and their families moved into surplus military housing provided by the college. The mid-1940s also were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling, and the NCAA championship in basketball. In 2016, the undefeated 1945 football team was retroactively awarded the national championship trophy by the American Football Coaches Association. The next year, the wrestling and basketball teams repeated as national champions, and the football team won the Sugar Bowl.

Coaches and players from that era are now sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

People often ask when OSU made the transition from college to university. By the 1950s the college had grown substantially. Suggested names for a “new” institution were “Great Plains University,” “International University,” and “Atomic University.” In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU would build academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988, and OSU-Tulsa was born in 1999.

Today, OSU has more than 35,000 students across five campuses and a presence in every Oklahoma county through its extension offices and experiment stations. From six graduates in 1896, to nearly 5,000 annually today, the small college on the prairie has grown and prospered far beyond the dreams of its founders. OSU teaching, research and graduates are making a bigger impact on the lives of people around the world than ever before. It’s a great time to be a Cowboy!
