Fall Commencement 2011

December 16 & 17
The story of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma’s territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College (OAMC) in Payne County. OAMC’s first students assembled for class on December 14, 1891, even though there were no buildings, no books, and no curriculum. The college’s first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie that were donated by four local homesteaders. The college’s first six graduates received their diplomas in 1896.

Visitors to the OSU campus often marvel at its beauty and consistency of architecture. Much of the credit goes to OAMC’s legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett’s 25-year campus master plan envisioned some of the university’s most famous and beautiful structures, including the Edmon Low Library and the OSU Student Union. A new campus master plan is guiding unprecedented construction that is making OSU more competitive in academics and athletics. Starting in the fall of 2008, OSU has opened the new Multimodal Transportation Terminal, the new North Classroom Building, the west end zone of Boone Pickens Stadium, refurbished Old Central, the Donald W. Reynolds Architecture Building, an upgraded Murray Hall and the new Henry Bellmon Research Center. Work is progressing on a major renovation of the Student Union. Hall of Fame Avenue on the north and University Avenue on the south have both been significantly upgraded, and the university has started an update to its campus landscape plan.

OSU grew quite rapidly following World War II. The post-war years were marked by a huge enrollment surge. Some graduates from that era may remember “Veteran’s Village,” a thriving community that developed on the northwest edge of campus as veterans and their families moved into surplus military housing provided by the college. The mid-1940s also were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling, and the NCAA championship in basketball. The next year, the wrestling and basketball teams repeated as national champions, and the football team won the Sugar Bowl.

Coaches and players from that era are now sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

People often ask when OSU made the transition from college to university. By the 1950s the college had grown substantially. Suggested names for a “new” institution were “Great Plains University,” “International University,” and “Atomic University.” In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU would build academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988, and OSU-Tulsa was born in 1999.

Today, OSU has more than 36,000 students across five campuses and a presence in every Oklahoma county through its extension offices and experiment stations. From six graduates in 1896, to nearly 5,000 annually today, the small college on the prairie has grown and prospered far beyond the dreams of its founders. OSU teaching, research and graduates are making a bigger impact on the lives of people around the world than ever before. It’s a great time to be a Cowboy!

Message from the President

This is a momentous day on the beautiful campus of Oklahoma State University.

As an Oklahoma State University graduate, you join a long list of successful men and women who have gone before you. For decades, OSU graduates have used their creativity and passion to make an impact on our world. In fact, Branding Success is the name of our current fundraising campaign. We know each one of you is prepared to boldly go forward and find your own success.

We are honored to welcome all the family and friends that are here to join in this wonderful and meaningful accomplishment. We are thankful your graduate chose OSU. You should be extremely proud of the role you played in his or her success.

The entire OSU community – faculty, staff, alumni and donors – takes special pride in watching our students walk across the stage. This is the day that makes all our work worthwhile. OSU exists to help our students pursue their dreams and today we all rejoice!

Congratulations. Best wishes. Go Pokes!

Sincerely,

V. Burns Hargis

Alma Mater Hymn of Oklahoma State University
Words by Robert McCulloh, ‘49

Proud and immortal, Bright shines your name;
Oklahoma State, We herald your fame.
Ever you’ll find us loyal and true,
To our Alma Mater, O. S. U.

Oklahoma
Written by Oscar Hammerstein II
Music by Richard Rodgers

Oklahoma, where the wind comes sweepin’ down the plain,
And the wavin’ wheat can sure smell sweet
When the wind comes right behind the rain.
Oklahoma, ev’ry night my honey lamb and I
Sit alone and talk and watch a hawk makin’ lazy circles in the sky
We know we belong to the land
And the land we belong to is grand!
And when we say - Yeeow! A-yip-i-o-ee-ay!
We’re only sayin’ You’re doin’ fine, Oklahoma!
Oklahoma - O.K.

A native of Tulsa, Oklahoma, Mr. Humphreys earned a Bachelor of Science in Industrial Engineering and Management from Oklahoma State University in 1971. He served in the U.S. Army from 1972-1974. He obtained an M.B.A. from the Wharton School of the University of Pennsylvania before joining Exxon Chemical Company in 1976. In 1986, after several assignments in Houston, Baton Rouge and Baytown, he transferred to Exxon Corporation in New York as Senior Financial Advisor in the Controller’s Department. In 1988, he moved to Exxon Company, International as Financial Reporting Manager and later served as General Auditor. In 1990, Humphreys became Upstream Controller of Exxon Company, U.S.A.

In 1993, he moved to Kuala Lumpur, Malaysia, as Financial Director of the Exxon companies in Malaysia. Humphreys became an Assistant Treasurer of Exxon Corporation in January 1997 and was elected Vice President and Controller in July 1997.

Concurrent with the merger with Mobil in 1999, Humphreys was named Vice President and Controller of Exxon Mobil Corporation. In July 2004, he was named Vice President and Treasurer of Exxon Mobil Corporation. He was elected Senior Vice President and Treasurer and also joined the Corporation’s Management Committee effective January 1, 2006. He currently serves the Corporation as Principal Financial Officer.

Mr. Humphreys serves as a Director on the boards of Texas Parks and Wildlife Foundation and Junior Achievement. He is a member of Financial Executives International and the American Petroleum Institute. He has also served as a member of the Financial Accounting Standards Advisory Council.

In addition, Mr. Humphreys serves as a Trustee of the Oklahoma State University Foundation and is a Life Member of the OSU Alumni Association. In 2007, Mr. Humphreys was named a Distinguished Alumnus of OSU and was inducted into the Spears School of Business Hall of Fame. In 2008, he was inducted into the College of Engineering, Architecture and Technology Hall of Fame. In 2010, he was inducted into the OSU Alumni Hall of Fame, and he and his wife Cathey were named Henry G. Bennett Distinguished Fellows.

Don and Cathey, a graduate of the University of Oklahoma, share a passion for the benefits of higher education. They have endowed scholarships, programs and chairs at OSU, OU, Wharton and the University of Tulsa.

The list of fall 2011 degree candidates was prepared before final grades were reported, and inclusion herein does not constitute evidence of graduation. Final action to ensure an accurate listing of names of all persons qualified for degrees could not be compiled before this program went to print. The listing of a name in this program should not be construed as an indication that the person will in fact receive a fall 2011 degree from Oklahoma State University at this commencement. Conversely, the absence of a student’s name from this list does not necessarily mean the person will not be awarded a degree. Final certification of degree and academic distinction will be made by the Colleges and the Registrar after candidates have completed all degree requirements.

Academic Regalia

The robes, hats and hoods worn by faculty members and graduates as they march into the commencement hall, and even the different colors you see on them, have historical origins and significance.

During the Middle Ages, scholars at the earliest English and European universities wore wool or fur garments to stay warm in the drafty, stone buildings that were poorly heated. Most of the scholars were also monks or priests, and as such had the hair shaved from the crowns of their heads in the distinctive clerical tonsure. Most wore cloaks that included a hood that could be pulled up to keep their heads warm. The academic gowns and hoods were adapted from both secular and clerical garments of the time, and the hood was chosen by the early scholars to indicate by color, trim or binding the degree held by the wearer.

The style of academic dress most frequently worn in the United States dates back to colonial times, although it was not formally adopted until near the end of the 19th Century, when it was chosen as appropriate attire by the Intercollegiate Commission during a meeting in New York. It has remained the general standard in America since, although some variations occur at individual institutions. In the United States, black is the traditional color for academic gowns, although some institutions allow holders of doctoral degrees to wear robes in the university’s colors.

The sleeves of the robes vary, depending on the degree held by the wearer. The bachelor’s robe has long, pointed sleeves. The master’s robe has sleeves that are oblong and closed at the ends, with slits through which the arms may be extended. The doctoral robe has a full sleeve with a velvet facing on the front and at the neck, and three velvet bars on each sleeve. The velvet may be black or of a color that symbolizes the degree held by the wearer.

The head covering most commonly used in the United States is the square, tasseled “mortarboard.” Some American universities, however, use berets, and in other countries a variety of styles of head coverings is worn with academic regalia. The tassel is usually black and is worn over the left front quarter of the mortarboard. Holders of doctoral degrees may wear gold tassels.

The hood is the most distinctive feature of American academic dress, which through color and design may indicate the wearer’s degree and the institution at which that degree was earned. Hoods are lined with the colors of the institution that awards the degree, and may be faced with the color designating the degree awarded. Hoods vary in length. The bachelor’s hood is about three feet long, the master’s slightly longer and the doctoral version is longer still and is decorated with broad color panels.

Candidates for advanced or professional degrees wear hoods symbolic of the degree. The color of the trim of the hood and the sleeve chevrons and panels of the academic gown are distinctive of the degree as follows:

The colors of Oklahoma State University are embodied in the lining of the hood (orange and black chevron).

The colors of the hoods of faculty and guests are those of the institution conferring the degree.

In addition to the academic regalia described above, some students wear cords, sashes, ribbons, and other symbols of heritage or achievement in academics, service, and leadership.

Portions of the proceeding were adapted from the commencement program of the University of Arkansas at Little Rock.
