Spring Commencement
2012
May 4 & 5
The history of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma’s territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College (OAMC) in Payne County. OAMC’s first students assembled for class on December 14, 1891, even though there were no buildings, no books, and no curriculum. The college’s first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie that were donated by four local homesteaders. The college’s first six graduates received their diplomas in 1896.

Visitors to the OSU campus often marvel at its beauty and consistency of architecture. Much of the credit goes to OAMC’s legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett’s 25-year campus master plan envisioned some of the university’s most famous and beautiful structures, including the Edmon Low Library and the OSU Student Union. A new campus master plan is guiding unprecedented construction that is making OSU more competitive in academics and athletics. Starting in the fall of 2008, OSU has opened the new Multimodal Transportation Terminal, the new North Classroom Building, the west end zone of Boone Pickens Stadium, refurbished Old Central, the Donald W. Reynolds Architecture Building, an upgraded Murray Hall, the new Henry Bellmon Research Center and an updated and expanded Student Union. Hall of Fame Avenue on the north and University Avenue on the south have both been significantly upgraded, and the university is updating Monroe Street and its campus landscape plan.

OSU grew quite rapidly following World War II. The post-war years were marked by a huge enrollment surge. Some graduates from that era may remember “Veteran’s Village,” a thriving community that developed on the northwest edge of campus as veterans and their families moved into surplus military housing provided by the college. The mid-1940s also were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling, and the NCAA championship in basketball. The next year, the wrestling and basketball teams repeated as national champions, and the football team won the Sugar Bowl.

Coaches and players from that era are now sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

People often ask when OSU made the transition from college to university. By the 1950s the college had grown substantially. Suggested names for a “new” institution were “Great Plains University,” “International University,” and “Atomic University.” In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU would build academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988, and OSU-Tulsa was born in 1999.

Today, OSU has more than 36,000 students across five campuses and a presence in every Oklahoma county through its extension offices and experiment stations. From six graduates in 1896, to nearly 5,000 annually today, the small college on the prairie has grown and prospered far beyond the dreams of its founders. OSU teaching, research and graduates are making a bigger impact on the lives of people around the world than ever before. It’s a great time to be a Cowboy!

Message from the President

This is a momentous day on the beautiful campus of Oklahoma State University.

As an Oklahoma State University graduate, you join a long list of successful men and women who have gone before you. For decades, OSU graduates have used their creativity and passion to make an impact on our world. In fact, Branding Success is the name of our current fundraising campaign. We know each one of you is prepared to boldly go forward and find your own success.

We are honored to welcome all the family and friends that are here to join in this wonderful and meaningful accomplishment. We are thankful your graduate chose OSU. You should be extremely proud of the role you played in his or her success.

The entire OSU community – faculty, staff, alumni and donors – takes special pride in watching our students walk across the stage. This is the day that makes all our work worthwhile. OSU exists to help our students pursue their dreams and today we all rejoice!

Congratulations. Best wishes. Go Pokes!

Sincerely,

Alma Mater Hymn of Oklahoma State University

Words by Robert McCulloh, ’49

Proud and immortal, Bright shines your name;
Oklahoma State, We herald your fame.
Ever you’ll find us loyal and true,
To our Alma Mater, O. S. U.

Oklahoma

Written by Oscar Hammerstein II
Music by Richard Rodgers

Oklahoma, where the wind comes sweepin’ down the plain,
And the wavin’ wheat can sure smell sweet
When the wind comes right behind the rain.
Oklahoma, ev’ry night my honey lamb and I
Sit alone and talk and watch a hawk makin’ lazy circles in the sky
We know we belong to the land
And the land we belong to is grand!
And when we say - Yeeow! A-yip-i-o-ee-ay!
We’re only sayin’ You’re doin’ fine, Oklahoma!
Oklahoma - O.K.

**Honorary Degree**

**Vaughn O. Vennerberg, II**

**Doctorate of Human Letters**

Vaughn O. Vennerberg, II is a native of Midwest City, Oklahoma, and currently resides in Dallas, Texas. Vennerberg graduated in 1976 from Oklahoma State University with a bachelor’s degree in psychology. He served as a student senator for the College of Arts and Sciences and also served on the Arts & Sciences Student Council. In 1976 he was named one of the Top 10 Seniors for the College of Arts & Sciences.

He also served as president of the Student Union Activities Board, Blue Key National Honor Society and the Interfraternity Council. He was a member of Delta Tau Delta fraternity where he received the Bob Cox Award for Outstanding Senior. In 1976 he was also named a Redskin Congratulate, an honor for OSU’s Top 12 graduating seniors. He was also a member of Omicron Delta Kappa, a national leadership honor society and Psi Chi.

Mr. Vennerberg served as a special assistant to former OSU president Dr. Robert B. Kamm in his 1978 bid for the U.S. Senate from Oklahoma.

Vennerberg was the president and director of Fort Worth, Texas, based XTO Energy, Inc. until its merger with ExxonMobil in June of 2010. At the time of the merger, XTO was the nation’s largest domestic gas producer with 3,400 employees. Under his leadership, the company’s acquisition of oil and gas properties propelled it to the top of the New York Stock Exchange. He has been with XTO for 23 years. He currently is one of the founding partners of MorningStar Partners, an oil and gas acquisition entity.

Vennerberg has experienced great success and his many honors include being named the 2008 Petroleum Landman of the Year by the 12,000 member American Association of Petroleum Landmen, named a 2010 OSU Distinguished Alumnus for the College of Arts & Sciences, as well as a Distinguished Alumni 2011, by the OSU Alumni Association.

A philanthropist at heart, Vennerberg has been giving generously to OSU for nearly 30 years. In 2008, he partnered with XTO Energy, Inc. to establish three endowed faculty positions, which were the first of their kind in the microbiology and molecular genetics, art, and psychology departments. These gifts qualified for a dollar-for-dollar match by the Oklahoma State Regents for Higher Education and OSU alumnus T. Boone Pickens, quadrupling their impact.

Being a psychology graduate and proponent of genetic research, he chose to make the gifts in areas that played a part in shaping who he is today. Vennerberg’s long-term goal is for the three positions to bring national academic recognition to OSU through outstanding research and to help recruit talented faculty and students.

He serves, or has served, on the boards of the Oklahoma Independent Petroleum Association and America’s National Gas Alliance. He served two terms on the board of the Oklahoma Energy Resources Board, as well as on the boards of the Alaska Oil and Gas Association and New Mexico Oil and Gas Association.

In 1981, he received a Rotary Foundation Fellowship and traveled to India visiting with various groups about the oil and gas industry in the U.S.
Honorary Degree

Sir Ken Robinson

Doctorate of Human Letters

Sir Ken Robinson, PhD, is an internationally recognized leader in the development of education, creativity and innovation. He is also one of the world’s leading speakers with a profound impact on audiences everywhere. The videos of his famous 2006 and 2010 talks to the prestigious TED Conference have been seen by an estimated 200 million people in over 150 countries.

He works with governments in Europe, Asia and the USA, with international agencies, Fortune 500 companies and some of the world’s leading cultural organizations. In 1998, he led a national commission on creativity, education and the economy for the UK Government. All Our Futures: Creativity, Culture and Education (The Robinson Report) was published to wide acclaim in 1999. He was the central figure in developing a strategy for creative and economic development as part of the Peace Process in Northern Ireland, working with the ministers for training, education enterprise and culture. The resulting blueprint for change, Unlocking Creativity, was adopted by politicians of all parties and by business, education and cultural leaders across the Province. He was one of four international advisors to the Singapore Government for its strategy to become the creative hub of South East Asia.

For twelve years, he was professor of education at the University of Warwick in the UK and is now professor emeritus. He has received honorary degrees from the Rhode Island School of Design, Ringling College of Arts and Design, the Open University and the Central School of Speech and Drama, Birmingham City University and the Liverpool Institute for Performing Arts. He has been honored with the Athena Award of the Rhode Island School of Design for services to the arts and education; the Peabody Medal for contributions to the arts and culture in the United States, the LEGO Prize for international achievement in education, and the Benjamin Franklin Medal of the Royal Society of Arts for outstanding contributions to cultural relations between the United Kingdom and the United States. In 2005, he was named as one of Time/Fortune/CNN’s’ Principal Voices. In 2003, he received a knighthood from Queen Elizabeth II for his services to the arts. He speaks to audiences throughout the world on the creative challenges facing business and education in the new global economies.

Sir Ken was born in Liverpool, UK, as one of seven children. He is married to Therese (Lady) Robinson. They have two children, James and Kate, and now live in Los Angeles, California.

Additional Fall 2011 Degree Recipients

OSU fall degree candidates are invited to participate in the OSU fall commencement ceremony, and their names are listed in the fall commencement book. However, because the fall commencement book goes to print shortly after November 1, it is not possible to include candidates who apply for graduation after that date. This section recognizes these degree recipients, some of whom will participate in today’s ceremony.

*Honors College Degrees

Final grade point average distinctions will appear on undergraduate diplomas and transcripts:

Summa Cum Laude, 3.90-4.00; Magna Cum Laude, 3.80-3.89; Cum Laude, 3.70-3.79 (based on final cumulative graduation/retention GPA).
The list of degree candidates was prepared before final grades were reported, and inclusion herein does not constitute evidence of graduation. Final action to ensure an accurate listing of names of all persons qualified for degrees could not be compiled before this program went to print. The listing of a name in this program should not be construed as an indication that the person will in fact receive a degree from Oklahoma State University at this commencement. Conversely, the absence of a student’s name from this list does not necessarily mean the person will not be awarded a degree. Final certification of degree and academic distinction will be made by the Colleges and the Registrar after candidates have completed all degree requirements.
Academic Regalia

The robes, hats and hoods worn by faculty members and graduates as they march into the commencement hall, and even the different colors you see on them, have historical origins and significance.

During the Middle Ages, scholars at the earliest English and European universities wore wool or fur garments to stay warm in the drafty, stone buildings that were poorly heated. Most of the scholars were also monks or priests, and as such had the hair shaved from the crowns of their heads in the distinctive clerical tonsure. Most wore cloaks that included a hood that could be pulled up to keep their heads warm. The academic gowns and hoods were adapted from both secular and clerical garments of the time, and the hood was chosen by the early scholars to indicate by color, trim or binding the degree held by the wearer. The style of academic dress most frequently worn in the United States dates back to colonial times, although it was not formally adopted until near the end of the 19th Century, when it was chosen as appropriate attire by the Intercollegiate Commission during a meeting in New York. It has remained the general standard in America since, although some variations occur at individual institutions. In the United States, black is the traditional color for academic gowns, although some institutions allow holders of doctoral degrees to wear robes in the university’s colors.

The sleeves of the robes vary, depending on the degree held by the wearer. The bachelor’s robe has long, pointed sleeves. The master’s robe has sleeves that are oblong and closed at the ends, with slits through which the arms may be extended. The doctoral robe has a full sleeve with a velvet facing on the front and at the neck, and three velvet bars on each sleeve. The velvet may be black or of a color that symbolizes the degree held by the wearer.

The head covering most commonly used in the United States is the square, tasseled “mortarboard.” Some American universities, however, use berets, and in other countries a variety of styles of head coverings is worn with academic regalia. The tassel is usually black and is worn over the left front quarter of the mortarboard. Holders of doctoral degrees may wear gold tassels.

The hood is the most distinctive feature of American academic dress, which through color and design may indicate the wearer's degree and the institution at which that degree was earned. Hoods are lined with the colors of the institution that awards the degree, and may be faced with the color designating the degree awarded. Hoods vary in length. The bachelor’s hood is about three feet long, the master’s slightly longer and the doctoral version is longer still and is decorated with broad color panels.

Candidates for advanced or professional degrees wear hoods symbolic of the degree. The color of the trim of the hood and the sleeve chevrons and panels of the academic gown are distinctive of the degree as follows:

<table>

The colors of Oklahoma State University are embodied in the lining of the hood (orange and black chevron). The colors of the hoods of faculty and guests are those of the institution conferring the degree.

Portions of the proceeding were adapted from the commencement program of the University of Arkansas at Little Rock.
